

Finnoy want to take a position to be Norwegians most important center of knowledge for small industry food-business. Our target groups are new inhabitants for living and working in Finnoy. The last year we have increased the population with about 100 new inhabitants. We have got a lot of media attention by focusing on health, food and quality of lives in wp.3. We will make a story and marketing strategy during June 2011. Before June we will establish a marketing group.
